

UNIVERSITY | Global  
*of* NICOSIA | Semesters

## **LIFE & HEALTH SCIENCES**

### Credit-Bearing Research Internships

#### **RESEARCH INTERNSHIP PROJECTS**

- 1) Marine peptides for cosmetics
- 2) Green Chemistry applications for peptides synthesis
- 3) Interaction of self-assembled peptides with graphene for bioinks
- 4) Review of zoonotic diseases transmitted from birds to humans
- 5) Birds as indicators of microplastic pollution
- 6) A meta-analysis of songbird poaching in the Mediterranean and Middle East
- 7) Review of microplastic pollution in carnivorous mammals
- 8) Questionnaire on knowledge and misconceptions about evolution and human evolution
- 9) Questionnaire on knowledge and misconceptions about climate change and the climate crisis
- 10) Functional capacity assessment in older adults
- 11) Special Concerns of the female athlete

\*\*\*Additional details on research projects can be provided upon request.
