ABOUT CYPRUS

Cyprus is situated in the northeastern corner of the Mediterranean, at the meeting point of Europe, Asia and Africa. Since the dawn of history, Cyprus has been one of the most interesting countries in the region, with a rich and visible cultural history. Ancient Greeks, Egyptians and Romans, along with Crusaders, Byzantines, Franks and Ottomans, have all left a powerful legacy for visitors to see and admire.

Cyprus is the safest country in the world for 15- 29 year olds, according to the World Health Organization. Crime is almost non-existent, and the Cypriot people are famous for the warm and friendly welcome they extend to visitors.

Like Singapore and Hong Kong, Cyprus is an important financial and business center, with over 70% of the economy focused on services. The main industries in Cyprus are financial and professional services, banking, investment management, shipping, tourism and real estate. Cyprus hosts the financial infrastructure for thousands of multinational companies due to its stable and modern legal and tax environment, highly educated workforce, and excellent quality of life.

Cyprus is a world-class tourist destination, with some of the best beaches in Europe and the world, and boasts an amazing combination of island hospitality, pristine beaches and nature preserves, and bustling cosmopolitan urban centers. Cyprus has over 1,000 hotels and resorts, and one of the most developed tourism infrastructures per-capita in the world.

Cyprus is also a global maritime hub. It is the 2nd-largest ship management center in the world, responsible for maintaining and operating a large percentage of the world's fleets. It also has the 3rd-largest merchant fleet in Europe.

And perhaps, most famously, Cyprus is the birthplace of Aphrodite. She was believed by the Ancient Greeks to have ascended from the seafoam of waves crashing against Aphrodite's Rock. This is why Cyprus is known as "The Island of Love".

Cyprus is an amazing place to study abroad because it truly has something to offer every type of student and traveller!

You get the best of all worlds in Cyprus:

- ▼ Safety
- ▼ Incredible Weather
- ▼ Island Hospitality
- ▼ World-Class Beaches
- ▼ Cosmopolitan Urban Living
- ▼ Easy and Affordable Location from which to Travel
- ▼ Proximity to the International Banking, Finance, Accounting and Shipping Center of the Mediterranean

THE UNIVERSITY OF NICOSIA

The University of Nicosia is the largest research university in Southern Europe that teaches in English, with over 11,500 students from more than 70 countries across the globe.

Located in Nicosia, the country's capital, and with presence in 18 other cities worldwide, we are driven by our pursuit of excellence in teaching and learning, innovation, research, technology and a continually evolving academic environment.

Many of our degree programs and departments were the first of their kind in Cyprus. Over time, several programs such as Medicine, International Relations, Accounting, Law and Architecture, have developed into some of the most well-regarded in the region. Today, UNIC's new programs focus on cutting-edge research, making us global leaders in certain fields, such as in our very successful initiative in Digital Currency/Blockchain Technology.

UNIC has a deep, decades-long relationship with the United States, from academic and research partnerships with American universities, to hosting thousands of students from hundreds of U.S. universities on year-long, semester, summer, and faculty-led programs.

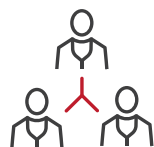

UNIC further solidified its relationship to the American community by establishing **The American Center** at the University, in collaboration with the Embassy of the United States of America in Cyprus. For more details about **The American Center**, see pages: 11-12.

THE AMERICAN CENTER

A joint initiative between the University of Nicosia and The American Embassy in Cyprus, building on 37 years of ties between UNIC, Cyprus and the USA

- 18 October 2017 marked the inauguration of The American Center at the University of Nicosia (UNIC), whose goal is to foster academic, cultural and professional collaboration between the United States and Cyprus.
 - The University of Nicosia maintains the strongest ties to American academia in Cyprus, and some of the strongest in the Mediterranean region. In any given year, over 200 American students study at UNIC on a full-time basis, either at the University's Medical School or on UNIC's pioneering online MSc focused on cryptocurrency and blockchain technology.
 - The American Center at UNIC includes:
 - Outreach to American universities for joint initiatives in the areas of teaching and research
 - Cultural events open to the public at large
 - Joint activities with the Embassy within Cyprus
 - Opportunities for visiting U.S. students to be part of an "American Roadshow" that will travel throughout the island to meet young Cypriots and talk about their U.S. education and culture
- All with the goal of strengthening ties between our two nations.*

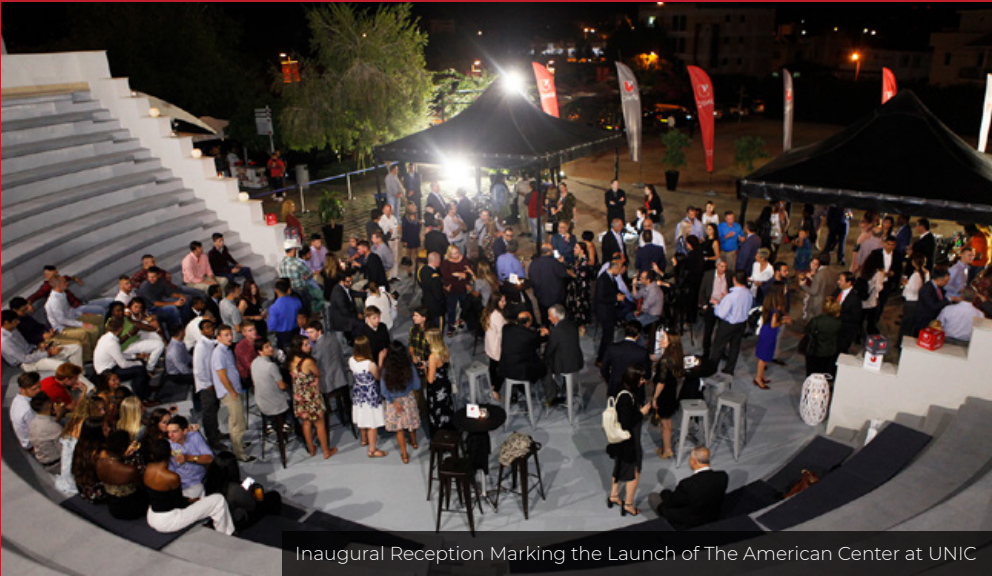

"I am pleased to see that more Americans are coming here to study. This is part of a much larger trend in global mobility, where students get the opportunity to benefit from an increasingly inter-connected world..."

"We at the Embassy want to do what we can to support your stay here. So, this year, we are pleased to announce that with the University of Nicosia, we will launch an inaugural student engagement program funded by the State Department's Bureau of Education and Cultural Affairs. This program aims to support American students who are here on the island and the institutions that host them."

UNIC DOMINATES COMPETITIVE UNIVERSITY SPORTS IN CYPRUS
Cyprus University Sports Federation Championships 2017

UNIC EAGLES

The Sports Office on campus promotes sports on and off campus, including events and tournaments where all students, staff and faculty of the University can participate, offering intramural activities, as well as special recreation and educational events.

COMPETITIVE SPORTS

UNIC maintains a high standard athletics program, enabling students to participate in the Cyprus University Sports Federation (CUSF) in a variety of women's and men's sports as follows:

- ▼ Basketball (Men & Women)
- ▼ Volleyball (Men & Women)
- ▼ Futsal (Men & Women)
- ▼ Handball (Men)
- ▼ Football (Men)
- ▼ Cross Country Run (Men & Women)
- ▼ Table Tennis (Men & Women)
- ▼ Judo (Men)
- ▼ Badminton (Men & Women)
- ▼ Taekwondo (Men & Women)
- ▼ Track and Field (Men & Women)

RECREATIONAL SPORTS

UNIC also offers a range of fun sports activities throughout the academic year, which are a great way to meet people with similar interests. These include paintball, bowling, table tennis, beach soccer, beach volleyball, hiking, and diving.

SPORTS CLUBS

Our Sports Clubs are very popular with our students. They operate at a volunteer level and promote and give incentives to the whole University community to enjoy, learn and try new sport activities.

- ▼ Aerobics and Fitness
- ▼ Basketball
- ▼ Bowling
- ▼ Cricket
- ▼ Cycling
- ▼ Diving
- ▼ Futsal
- ▼ Martial Arts
- ▼ Outdoor Activities
- ▼ Running
- ▼ Taekwondo

ABOUT GLOBAL SEMESTERS

University of Nicosia Global Semesters (UNGS) is the study abroad unit of the University of Nicosia. It organizes comprehensive, all-inclusive year-long, semester and summer study abroad programs, as well as faculty-led and custom programs, ensuring that students have everything they need to excel and get the most from their experience abroad.

As a UNGS student, you have unprecedented access to a wide spectrum of courses, internship, research and volunteer opportunities, as well as extensive travel within your host country, and amazing international travel itineraries.

SEMESTER & SUMMER PROGRAMS INCLUDE:

- ▼ Tuition
- ▼ Housing
- ▼ Cyprus 7-City Tour (*See Pages: 17-18*)
- ▼ Resident Program Coordinators and A Dedicated Team for Study Abroad Students
- ▼ 24/7 Emergency Support
- ▼ Medical/Evacuation/Repatriation Insurance
- ▼ Full Orientation
- ▼ Welcome and Farewell Dinners
- ▼ Local Cell Phone Handset and SIM Card*
- ▼ Pre-Departure Advising with our U.S.-Based Advising Team
- ▼ Post-Program Support
- ▼ Lifetime Access to Referral Rewards via our Alumni Network
- ▼ Access to University Student Services and Facilities

PROGRAM OPTIONS:

- ▼ Meal Plan
- ▼ Premium Single Apartment in New Student Residences
- ▼ Optional International Travel Packages
Europe Trip for Semester Programs (See Pages: 19-20)
Mediterranean Trip for Summer Programs (See Pages: 21-22)
- ▼ Internships**
- ▼ Additional Tuition Credits
- ▼ Volunteer Opportunities**
- ▼ Research Opportunities**

* Pay As You Go/Top-Up

** Where Available - Arrangements must be made in Advance

CYPRUS

7-CITY TOUR

Students on our programs travel all around Cyprus as part of their program. Cyprus has 12,000 years of cultural history, world-famous beaches, and world-renowned geology.

NICOSIA

- Capital of Cyprus, largest city, epicenter of government, education, industry and embassies
- The city center is surrounded by one of only two remaining sets of complete Venetian fortifications in the world

LIMASSOL

- Second largest city in Cyprus
- Center for ship management industry
- Limassol Castle - Where Richard the Lionheart was Married

PAPHOS

- Ancient Cypriot city so rich in archaeological heritage that the entire city has been declared a UNESCO World Heritage Site
- Aphrodite's Rock - The mythical birthplace of Aphrodite

LARNACA

- The #16 Oldest City in the World (*The Telegraph*)
- Burial site of Saint Lazarus (after resurrection)
- Zenobia Shipwreck - One of the top 10 wreck dives in the world

AYIA NAPA / PROTARAS

- 3 of the top 20 best beaches in Europe (*TripAdvisor, 2018*)
- Ayia Napa and Protaras - The heart of Cyprus' tourism industry, and home to some of the best beaches in the world

TROODOS MOUNTAIN VILLAGES

- Mount Olympus - The highest point in Cyprus, reaching 6,404 feet (1,952 meters) in elevation
- Platres - The former Colonial Hill Station
- Omodhos and the Wine-Making Villages - Some of the oldest wine wine producers in the world

KYRENIA

- Bellapais Abbey - Built on the side of a 12th Century Lusignan monastery, used by the Lusignans, Norbertines, Genoese, Venetians, and Ottomans, throughout the centuries
- Saint Hillarion Castle - Originally a monastery in the 10th Century, later fortified by the Byzantines, and the focus of a 13th Century four-year struggle between Holy Roman Emperor Frederick II and Regent John d' Ibelin for control of Cyprus

FAMAGUSTA

- The site of the Tower of Othello
- Once the richest city in the world
- Ammochostos - A "ghost town" sealed off over 40 years ago

SEMESTER EUROPE TRIP

The Europe Trip takes place before classes start during the Fall semester, and over spring break during the Spring semester. As such, the trip does not interfere with your coursework in any way.

The itinerary covers a lot of ground over the course of two-and-a-half weeks - more than you would be able to on your own - and strikes the right balance of guided vs. independent time. This is a perfect sampler of Europe, and a great way to discover places you want to visit again later.

No other program allows you to see so many cities, and visit so many cultural sites, while completing a full academic semester abroad!

This trip is an available option at an additional cost for Semester students only.

Cities Visited on this Trip:

- Paris
- Amsterdam
- Prague
- Vienna
- Brussels
- Berlin
- Luxembourg City
- Strasbourg
- Salzburg
- Bratislava
- Dresden
- Dachau

SUMMER MEDITERRANEAN TRIP

Summer in Cyprus students on the 4-week programs can add the Mediterranean international travel itinerary to their experience. Travel takes place at the end of the program, so it does not impact your classes in any way.

This is a great way to travel around the Mediterranean without having to think about the logistics of how to get there, where to stay, and what to see! Our team takes care of everything for you.

We ensure that you see the important cultural and historical sites in each city, while also giving you free time to explore on your own!

This trip is an available option at an additional cost for Summer students only.

Cities Visited on this Trip:

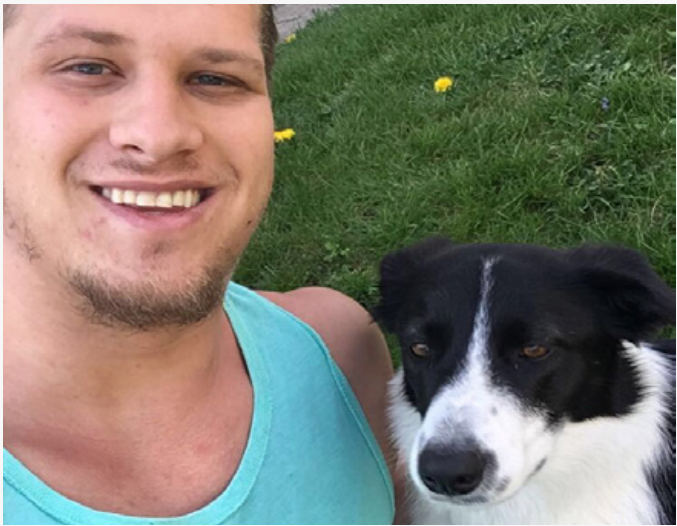

- ▼ Athens
- ▼ Rome

Past cruises have included some of the following Greek islands:

- ▼ Mykonos
- ▼ Santorini
- ▼ Patmos
- ▼ Crete
- ▼ Ios

Susquehanna University
Semester in Cyprus, Fall 2011

What made you decide to study abroad?

Studying abroad at my university was mandatory. I chose to go for a full semester because I wanted to immerse myself in another culture for as long as possible. It also helps that federal aid transferred easily for a full semester, so it made studying abroad very affordable.

Why did you pick UNIC and Cyprus?

I first listed Cyprus as a potential location to study abroad because of the huge list of course options that were available at UNIC. I finally chose Cyprus after I began researching the country. Escaping the bone-chilling Pennsylvania weather in exchange for a Mediterranean paradise seemed too good to be true, and the crystal clear water and pristine beaches sealed the deal for me. Texting friends back home from the beach while they were shoveling snow was the cherry on top!

Why was the experience awesome?

My favorite part about studying abroad, and specifically about studying abroad in Cyprus, was the ease of meeting new people from all over the world. Because the university teaches almost completely in English, I took my classes not just with other Americans, but also with full-time Cypriot and international students, as well as European study abroad students. Because of that, I was able to meet tons of students from all over the world. It was awesome: one day I was playing soccer with local students, and the next, I was celebrating Carnival with some of the European students I met. Coming from a small town, this is something that I could never of imagined prior to studying abroad.

Why would you recommend study abroad and this program to others?

As an advisor, it is almost comical how many students come to the same conclusion at the end of the program. "Why don't more Americans study abroad in Cyprus?" The answer, I believe, is that although Cyprus is known for its awesomeness throughout Europe, I think it is far enough away from the U.S. that it falls off American radars most of the time, which is unfortunate because Cyprus and UNIC have so many amazing qualities: tons of courses, internships, English-speaking, friendly people. beaches, beaches and more top ranked beaches, and so much sun! The awesomeness goes on and on, and I could fill a small book (or information packet) with this info, but someone else is already doing that!

How has studying abroad impacted your life so far?

Studying abroad has impacted my life in a super-obvious way thus far: I work in the international education field! More specifically, I work for The University of Nicosia! Beyond that, the experience helped me mature and become much more of an independent person, and I certainly needed that.

What are you up to now?

See the question above. I have been working for the University for almost 4 years now getting students excited and prepared to study abroad in the sunniest country in Europe!

ALUMNI STORIES

Semester in Cyprus Students on the Europe Trip

Edward Giard
Clemson University
Summer in Cyprus with Mediterranean Trip, 2017

What made you decide to study abroad?
Studying abroad was an extremely last-minute decision of mine. I found out about this program 3 days before the deadline and traveled here with my Communications Professor from Clemson University. Was definitely a once in a lifetime experience!

Why did you pick UNIC and Cyprus?
Cyprus sounded beautiful, we knew it was safe, and I couldn't turn down the opportunity to see all of the Greek islands, Rome, and all across Cyprus in just one summer [through the Mediterranean Trip during the Summer in Cyprus program].

Why was the experience awesome?
First of all, everyone in Cyprus was extremely welcoming. I know that sometimes locals in some countries don't like study abroad students, but it almost seemed as though everybody was even more welcoming towards us because we were from abroad. People wanted us to experience their culture and leave with a positive mindset.

Why would you recommend study abroad and this program to others?
It was an unbelievable experience. We were never bored! Whether it was trying new food, cliff jumping, or even hanging out with our professors, it was an experience I won't ever forget.

How has studying abroad impacted your life so far?
Studying abroad has truly made me realize how big the world is. Just traveling to different countries within Europe is extremely eye opening from both a social and cultural perspective.

What are you up to now?
I'm currently a Sophomore at Clemson University majoring in Business management with an emphasis in entrepreneurship and minor in communications. As of now, I am making videos and helping with marketing strategies for the University itself, along with starting a start-up company with a couple of buddies. Our company (Kanga) invented a cooler (Kase Mate) for an entire case of beverages and we are currently raising money to make a down payment on our manufacturing overseas. Along with that, a couple friends and I, who I met on a weekend excursion, all developed a campaign team for student body President and VP, and just recently won. So within Clemson's Student Government, I look forward to pursuing marketing strategies to completely change the way Clemson is viewed from an outsider's perspective.

What are your future plans?
As a current sophomore, I am looking to finish my degree at Clemson University, and to start several other start-up companies along the way. I also look to continue pursuing a career in videography and marketing, as I've been assigned the task of creating a documentary about Clemson University.

Johnna Metcalf
Illinois State University
Semester in Cyprus, Spring 2017

What made you decide to study abroad?

I chose to study abroad because I wanted to experience something new. I've always been a homebody, I love my hometown and my friends and family, but I wanted to prove to myself that I was strong enough to live on my own in a new place. Honestly, I was searching for myself. By studying abroad, I found this new part of myself that I never knew existed. I found a whole new world of independence, confidence, and I owe it all to Cyprus!

Why did you pick UNIC and Cyprus?

I chose Cyprus and UNIC because it was a place that I never heard of before. I wanted to experience something that no one else (at least where I'm from) had. When I learned about Cyprus's history, and everything that it's been through, I knew I had to be there. This place was so UNIC (unique) -- HA! See what I did there? Also, who else wouldn't want to live on an ISLAND for 4.5 months where it is sunny 330 days out of the year? That fact alone should make anyone's decision right then and there.

Why was the experience awesome?

My study abroad was such an awesome experience because of the people I met. Every single Cypriot I met—whether in passing, classes, administration, at coffee shops, on the streets, etc.— was so incredibly kind. The people of Cyprus would go out of their way to ensure that our questions were answered, that we were able to get where we were going, and make sure that we were safe. Cyprus was so incredible. There was not a day that I did not feel safe there. To be honest, there were days where I felt more safe in a foreign country (where I didn't speak the language, or know how to read the signs) than I did in my hometown. Additionally, our program mentors and students from the program were just so incredible.

Why would you recommend study abroad and this program to others?

I believe that everyone should study abroad at some point in their college career because you really do learn so much about yourself. As I mentioned before, I found this amazing confidence in myself that I never really had before. The professors at UNIC are SO amazing. They allow you to follow your own path of learning, and encourage you to think in your own way and perform at your own ability. They will give you TONS of responsibly (thank you Mr. George and Miss Yianna!) and let you run with it. I cannot talk highly enough about the program, professors, and administrators. Attending such a diverse university allowed me to open my eyes (and mind) to different ways of life. By surrounding yourself with different people and immersing yourself in a new culture, you start to pick up on different ways of thinking, of life. It's truly an incredible experience.

How has studying abroad impacted your life so far?

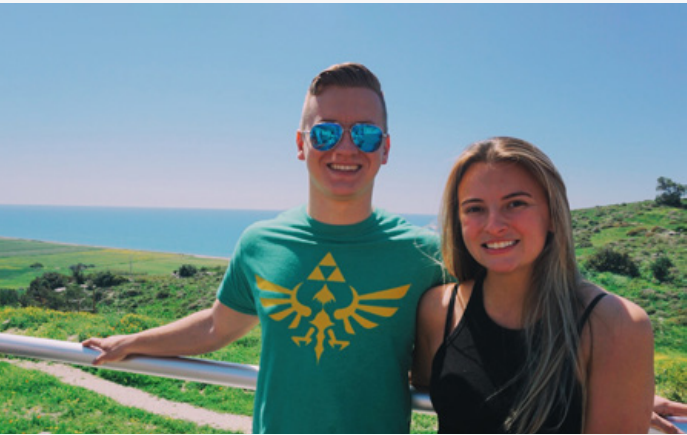

It's been a year since I've studied abroad in Nicosia, Cyprus. I miss it every single day. A day has not gone by where I have not brought up my study abroad experience to someone. Whether it was talking about the amazing food we had, or the weather, or the scenery, I bring up Cyprus in every conversation I have. To this day, I still don't understand how more people don't know about this amazing country. Studying abroad has opened my mind to new ways of thinking, allowing more people into my circle, and making me more confident and independent. I don't know where I would be, or who I would be for that matter, today if I did not take the crazy leap to study abroad.

What are you up to now?

My life is pretty boring back in the States—there hasn't been much time for traveling or exploring, or eating fun, new food, or dancing. But it's been great! I'm a senior in college, graduating in May 2019 (I am a year behind) with two bachelor of science degrees: one in Recreation Management and one in Organizational Leadership. I am the current Director of Fundraising for my Sorority Zeta Tau Alpha, Eta Phi. I have planned a fundraiser to raise awareness for our national philanthropy of breast cancer education and awareness. I have devoted so much time and energy into this fundraiser, I am so excited to see how it plays out! I'm also a waitress at a restaurant in town where I attend University. I have a few internships. Life is good! Note: it would be SO much better if I was still in Cyprus, but I will be back so so soon!

What are your future plans?

Upon graduation, I would absolutely love to work in the wedding industry as a wedding coordinator. I have had a few internships already, and I absolutely love the work I do. I love making people's dreams become a reality. It truly is so amazing to be able to plan someone's special day! One day I hope to go back to school for my master's degree in Business Administration. Owning my own wedding planning company one day would be a DREAM! Of course, traveling is also will be a big part of my future. I would love to return to Cyprus and explore different parts of the island that I didn't have a chance to while I was there. I've been toying with the idea of becoming a Traveling Leadership Consultant for my Sorority after I graduate. This would give me the opportunity to travel around the United States and help different sorority chapters with any issues they may be having, or to help them develop their own leadership skills in their chapter.

Madison Tonic
University of Florida
Summer in Cyprus, Summer 2017

In high school, I had always dreamed about studying abroad in college – but I never thought that I’d actually do it. I started looking into it because I needed to fulfill the summer course requirement for my degree, and as an out-of-state student whose scholarship doesn’t cover summer classes, it was a cheaper option than taking them at my home university. When searching for a program, however, I came to find that animal science programs were few and far between.

The one that I ended up finding was through Global Semesters, at the University of Nicosia in Cyprus. I had never heard of Cyprus before, and I was wary of committing to a program that wasn’t sponsored by my university, but I decided to take a risk. I am so glad that I did. Those four weeks that I spent in Cyprus were, without a doubt, the best of my life. Apart from the amazing people that I had the pleasure of meeting, I was exposed to so much culture and so many new experiences. Cyprus is a gorgeous country that has such a rich history, and I am so lucky to have been able to live there for even a short time.

As far as my classes, I took six credits. My professors were very knowledgeable, and because of the small class sizes I was able to really get to know them. At the end of the four weeks, they felt like family. My classes included field trips to various farms and veterinary offices around Nicosia, which was awesome. I was very sad to leave at the end of my four weeks, but very grateful for the experience.

This was my first time across the Atlantic, and now I can’t wait to go back. Studying abroad has helped me gain an appreciation for other cultures and ignited my inner travel bug. As of right now, I’m finishing up my third year of undergrad and preparing to apply to vet school. I’ll be graduating in the fall and taking a semester off before the next chapter of my life begins.

I highly recommend anyone looking to step outside their comfort zone to study abroad. It changed me, and it will change you too!

John Francis
North Carolina A&T State University
Semester in Cyprus, Fall 2017

Cyprus was amazing because you could be relaxing on the beach one minute and then climbing old monuments the next. The island is so unique and inviting for adventure.

I recommend studying abroad in Cyprus at the University of Nicosia because along with the majority population of Greek and Turkish Cypriots, the student population is extremely diverse with students from the Middle East, Africa, England, Northern and Southern Europe, and much more. This experience enhances your ability to work in a multicultural group and form habits of adaptability without judgement.

Studying abroad impacted my life by growing my urge to expand my network across races and religions, and to travel more to see the world and all that it offers, whether that means pursuing career opportunities, establishing relationships, exploring nature, or eating a good meal.

I am currently a Senior Industrial and Systems Engineering Candidate at North Carolina A&T State University, expected to graduate Fall 2018.

This summer I will be interning with Abbott Laboratories in Menlo Park, CA in their Structural Heart Division.

Jake Onarheim
Illinois State University
Semester in Cyprus, Fall 2017

What made you decide to study abroad?

I've always wanted to study abroad when I was younger, and so when it came time to finally make that dream a reality, I did just that.

Why did you pick UNIC and Cyprus?

While I knew that I wanted to study abroad, I never had a specific destination in mind. I wanted to find a unique place that would also allow me to finish up my general education credits at my home university. And so, the University of Nicosia in Cyprus was the perfect choice because it fit both my requirements while also offering much more than I could have ever expected.

Why was the experience awesome?

Now this question is kind of hard to answer because there are so many reasons why my experience abroad was awesome and exciting throughout. I guess a good place to start would be mentioning Cyprus's location; perfectly placed between the continents of Europe, Asia, and Africa, its location allowed for me to travel even further than Cyprus. And man did that allow me to experience a lot: such as traveling through the Holy Lands of Israel, making a childhood dream come true with my trip to Greece, and hiking the Transylvanian wilderness in central Romania. And that's not to mention the endless memories I made in the country I called my home for three months. But what it comes down to and what really made my experience abroad so memorable were the people I met; the countless locals I got to interact with in the countries I visited, and the group of sixty American students that were a part of the same program I was in, truly made the trip for me - we became family very quickly.

Why would you recommend study abroad and this program to others?

I would recommend studying abroad to quite literally anyone because it is a chance to gain experience that nothing else could ever offer. If there is ever an opportunity for you to study abroad, I would recommend taking it in a heartbeat. I would recommend UNIC in Cyprus because it allows for such a unique experience compared to other countries due to the climate on the island as well as all the great people working there that really make you feel comfortable getting situated. However, if I had to give one piece of advice to any student considering studying abroad I would say just be ready to go with the flow, there will be some things that seem weird or confusing but having an open mind going into it will make everything a little better.

How has studying abroad impacted your life so far?

Studying abroad has impacted my life in several ways. It was my first time out of the country and may have well have been my first time out of Illinois, with how little I traveled prior to my study abroad experience. The key phrase here is 'prior to', because going abroad has sparked my desire to see and do as much as I can. I recently went on a road trip to Colorado for skiing and hiking, and I have an East Coast trip planned in the summer as well as a trip to Peru later down the line, all plans that would more than likely not have been made if it were not for studying abroad. Traveling almost halfway around the world showed me how accessible things truly could be if you just get up and go. I also feel a little older after studying abroad due to the added responsibilities I had to take on, like having to prepare or find food for every meal, and just taking care of myself in general while being outside my home country.

What are you up to now?

Right now, I am currently a sophomore at Illinois State University, going for my bachelor's degree in risk management and insurance.

What are your future plans?

As for the future, I have many things I would like to have accomplished at certain points in my life but nothing too concrete and set to a schedule other than an internship next summer and earning my bachelor's degree in RMI. I suppose the general agenda other than those things would be to get out and see as much as I possibly can while I am still able to, because I've learned that life's all about the new experiences and memories you make along the way.

INTERNSHIPS

Internships are available for semester students, mainly in areas related to:

- ▼ Business
- ▼ Marketing
- ▼ Communications
- ▼ Hospitality
- ▼ Events Planning
- ▼ Tourism
- ▼ Broadcasting/Journalism
- ▼ Public Relations

Customized opportunities are also available for qualified students.

If you are interested in interning during the semester, please send your résumé and areas of interest to admissions@globalsemesters.com after being admitted to the program. *Placements are subject to availability.*

VOLUNTEER OPPORTUNITIES

Volunteer opportunities are available through the University of Nicosia and local organizations.

Past students have volunteered with organizations such as:

- ▼ United Nations' Hope for Children
- ▼ Nicosia Dog Shelter
- ▼ UNIC MediaZone
- ▼ UNIC Student Events Department

If you are interested in volunteering, please let us know before you arrive.

RESEARCH

Students interested in undertaking research projects on any topic during their semester or summer abroad in Cyprus may submit a research proposal and plan of action to the enrollment team after their admission to the program.

Approved research proposals will be matched with a supervisor/mentor.

HOUSING

INCLUDED ON ALL UNGS PROGRAMS

UNIC "SIX" Student Residence

APARTMENT FEATURES

- Double-Sized Bed with Linens & Towels
- 32" Flat-Screen TV with Cable Access
- Private Balconies for each Studio
- Microwave
- Stovetop
- Refrigerator
- Desk
- Individually Controlled Air-Conditioning & Heating
- Ample Closet Space
- Broadband Internet Access
- Kitchen Utensils and Linens (*Sheets, Towels, Pillowcase*)

BUILDING AMENITIES

- Mini-Market, Coffeehouse Café
- Game Room, Study Room, TV Room
- Bicycle Racks
- Gym
- 24/7 Security, Eletronic Access Controls
- Laundry Facilities on a Pay-Per-Load Basis
- Laundry Service (*for Sheets Only*) Provided

SEMESTER STUDY ABROAD

Semester programs based in Cyprus include access to hundreds of courses across nearly every major, with options for credit-based internships, research and volunteer opportunities, along with full-immersion in the classroom, since there is no language barrier, and included guided travel around Cyprus to experience its rich cultural and natural history.

You can customize your experience further by adding the Europe Trip to your program-related travel itinerary, and travel to *Paris, Amsterdam, Brussels, Prague, Vienna, Berlin, Strasbourg, Salzburg, Luxembourg City, Bratislava, Dresden and Dachau!*

Additionally, you can travel independently during your free time, as Cyprus is incredibly well-connected to the rest of the world.

This program is perfect for students who want customized course schedules, are searching for hard-to-find research or lab-based courses, and for STEM students who do not have many opportunities to study abroad in English. There is something for every type of student and major in Cyprus at the University of Nicosia!

SEMESTER PROGRAMS

For a full list of hundreds of courses offered by UNIC in English, please consult:
<https://www.unic.ac.cy/study/current-students/university-syllabi>

SEMESTER FOR HEALTH SCIENCES MAJORS

You CAN study abroad - because UNIC offers these degree programs in English, you have access to lab-based science courses, which typically are not otherwise available in most of Southern Europe.

If you are currently on a pre-professional health track such as pre-medical, pre-nursing, pre-physical therapy or pre-veterinary, you have the unique opportunity to take courses that are part of your core or related curriculum in life and health sciences, which, combined with general education requirements and electives, can keep you on track for graduation.

You can gain early exposure to labs and facilities that might not be available back home; for example, taking an anatomy and physiology course in the cadaver lab at our Medical School campus.

There are many courses to choose from, in a wide variety of topics, including:

- ▼ Biology
- ▼ Chemistry
- ▼ Organic Chemistry
- ▼ Cell Biology
- ▼ Immunology and Virology
- ▼ Human Anatomy and Physiology
- ▼ Nursing
- ▼ Comparative Management and Delivery of Care

SEMESTER FOR SCIENCE AND ENGINEERING MAJORS

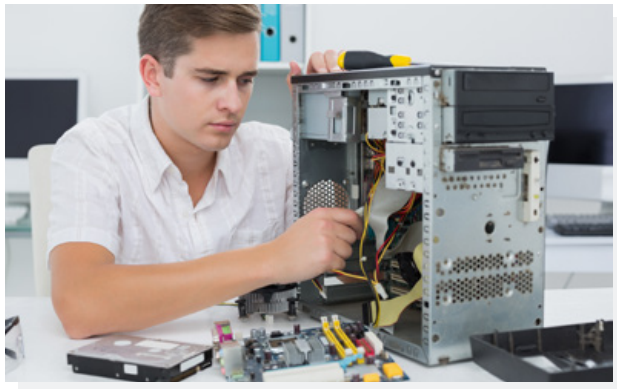

We have courses available in:

COMPUTER SCIENCE

- ▼ Computer Science
- ▼ Mathematics

ENGINEERING

- ▼ Civil and Environmental Engineering
- ▼ Computer Engineering
- ▼ Electrical Engineering
- ▼ Mechanical Engineering
- ▼ Oil and Gas Engineering
- ▼ Environmental and Energy Management

It is critical that STEM students stay on track, and UNIC science and engineering courses can help you study abroad without sacrificing progress you have made at your home university. UNIC offers everything from engineering to computer science, which you can combine with general education and elective courses to customize the ideal semester abroad that keeps you moving forward with your degree.

SEMESTER FOR HUMANITIES AND SOCIAL SCIENCES MAJORS

UNIC has a lot to offer social sciences and humanities students. UNIC is a leader in Eastern Mediterranean Studies, which explore peace and conflict, energy security, geopolitics, and diplomacy.

Our Communications department gives you world-class equipment and lab facilities, and internship opportunities.

Our Psychology courses and degree teach to the style of the American Psychological Association, and most faculty in the department have studied and trained in the United States.

We have courses available in:

EUROPEAN STUDIES & INTERNATIONAL RELATIONS

- ▼ Conflict and Peace Studies
- ▼ Diplomacy
- ▼ Energy Security
- ▼ Mediterranean and Middle East Studies
- ▼ Strategic Studies
- ▼ International Law

COMMUNICATIONS

- ▼ Digital Communications and Mass Media
- ▼ Journalism
- ▼ Radio, TV and Digital Broadcasting Media
- ▼ Film and Creative Media Production
- ▼ Public Relations, Advertising and Marketing
- ▼ Digital Media and Communications

LANGUAGES AND LITERATURE

- ▼ English Language and Literature
- ▼ Modern Greek
- ▼ Russian
- ▼ German
- ▼ French
- ▼ Italian

SOCIAL SCIENCES

- ▼ Psychology
- ▼ Sociology

SEMESTER FOR BUSINESS MAJORS

Cyprus is an international business, accounting, finance and banking hub, and plays a major role for investment in the region.

Cyprus is also a global maritime hub, with the 2nd-largest ship management center in the world, and the 3rd-largest merchant fleet in Europe.

Cyprus is also a world-class tourism destination, hosting nearly 4 million tourists per year.

UNIC plays a leading role in the academic training surrounding these industries. When you study abroad with us, you will have a large selection of courses, plus the opportunity to intern for credit!

We have courses available in:

ACCOUNTING AND FINANCE

- ▼ International Accounting
- ▼ Economics and Finance
- ▼ Business Administration

HOSPITALITY, TOURISM & SPORTS MANAGEMENT

- ▼ Hospitality Management
 - ▼ Casino Management
 - ▼ Spa and Wellness Center Management
- ▼ Sports Management
- ▼ Tourism, Leisure and Events Management

MANAGEMENT AND MIS

- ▼ Business Administration
- ▼ Energy, Oil and Gas Management
- ▼ Entrepreneurship and Innovation
- ▼ Human Resource Management
- ▼ Information Systems and Social Media
- ▼ Public Administration
- ▼ Real Estate
- ▼ Management Information Systems

MARKETING

- ▼ Marketing
- ▼ Marketing Communications

SEMESTER FOR PERFORMING ARTS MAJORS

We have courses available in:

MUSIC AND DANCE

- ▼ Dance
 - ▼ Contemporary
 - ▼ Ballet
 - ▼ Composition
 - ▼ Improvisation
 - ▼ Dance Education
- ▼ Music
 - ▼ Jazz Performance
 - ▼ Classical Performance
 - ▼ Music Education
 - ▼ Creative Music Technology

UNIC's Music and Dance departments feature world-renowned faculty, collaborations with international artistic and educational organizations, and you will have not only a wealth of courses and concentrations to choose from, but also numerous opportunities to perform with faculty as musicians and dancers in a variety of music concerts and dance productions.

Music technology students will study in our new state-of-the-art facilities!

SEMESTER FOR ART & DESIGN MAJORS

You can study architecture and interior design in our award-winning Architecture building, work with advanced 3-D printers and laser equipment, and learn about cutting-edge topics like crisis architecture and design.

Fine art students have access to multiple museums and galleries on the island, and can see how thousands of years of culture translate into works of art on display.

Graphic communications and applied multimedia students can work on interface design, game design and development, animation, and project management. Graphic communications students have access to courses in design studio, storyboarding, animation, 3D modeling, and modern art.

We have courses available in:

ARCHITECTURE

- ▼ Architecture
- ▼ Interior Design
- ▼ Sustainable Architecture

DESIGN AND MULTIMEDIA

- ▼ Applied Multimedia
- ▼ Fine Art
- ▼ Graphic Communication

SUMMER STUDY ABROAD

Summer programs based in Cyprus have specific academic tracks and provide an intensive and specialized experience with co-curricular site and field visits, and make an excellent addition to your résumé.

Each track includes two courses, site and field visits, and the option to add the Mediterranean international travel package which visits Athens, Rome, and several Greek islands.

Tracks range from STEM to Liberal Arts - if you thought you couldn't study abroad because of your major, these programs will prove that you can!

All tracks include guided travel around Cyprus to experience its rich cultural and natural history.

SUMMER PROGRAMS

Semester in Cyprus Students at Aphrodite's Rock

ART & PHOTOGRAPHY

Study Art History and Photography in a country with 12,000 years of cultural history, and a myriad external influences on its architecture and landscape - from nature preserves to waterfalls to turquoise beach coves and ancient volcanic mountains. Cyprus boasts several of the top beaches in Europe and one of the world's BEST beaches, some of the world's best-preserved ancient mosaics and ruins, and prize-winning modern architecture. You will have PLENTY of opportunities to put your skills to the test!

EARLY CHRISTIANITY

Study Ancient & Medieval Christian Thought in the first country in the world to be governed by a Christian ruler, and home to the UNESCO World Heritage Byzantine Painted Churches, as well as St. Lazarus' final burial place, and was at some point home to the Knights Templar. Museums and churches all around the island are a testament to the strong influence of Christian culture in Cyprus' history.

GEOLOGY

Cyprus is one of the most geologically interesting countries in the world. It's name is believed to be derived from the Greek word for "copper", and is home to the longest continuously-operational copper mine in the world. It also hosts one of the best-known ophiolite formations in the world - the Troodos Massif - where the ancient seabed can be found at the top of the mountains. The Troodos Mountain range is volcanic in its origin, and what is now Cyprus could once be found at the bottom of the ocean (90 million years ago)!

GREEK HERITAGE

This is a great program for students who would like an introduction to Modern Greek in an immersive setting, in one of the only two Greek-speaking countries in the world. The program combines language coursework along with cultural immersion activities in Cyprus to build basic language proficiency and comprehension.

This program is designed for students with modest or no Greek language skills and is excellent for someone who would like an introduction to Greek language, while being immersed in a Greek-speaking environment with the opportunity to put what you learn to the test!

INTERNATIONAL ACCOUNTING

Cyprus has the largest number of chartered accountants per capita in the world! The Big Four accounting firms all have a presence in Cyprus. This summer study abroad program in international accounting offers students the opportunity to examine the differences and similarities between GAAP and IFRS.

Cyprus is the only country in the European Union other than the UK that has historically always been on the Anglo-Saxon accounting system (IFRS). Cyprus has had this system since its inception because it was a British colony. It adopted this system in 1981, while the rest of the EU countries were on the Franco-Germanic system and did not adopt IFRS until 2005; this is an area where Cyprus has more expertise than most of the other EU countries.

The program includes site visits to major accounting firms on the island.

INTERNATIONAL MARKETING

This program is designed for business students who would like an introduction to marketing in an international context. The academic component of this program encompasses both international marketing and cultural studies in order to emphasize the need to understand the culture and environment in any international marketing exercise. Students will compare marketing in Cyprus to marketing in the United States during their field exercises.

This program could be valuable to any business student that is considering an international career, particularly in sales or marketing. If you select the international travel itinerary (Mediterranean trip) you will also be able to compare and contrast several international markets during the summer!

INTERNATIONAL RELATIONS

The Eastern Mediterranean has historically been the crossroads of civilizations, religions, ideas, and trade between Europe, Asia, Africa, East and West, Islam, Christianity, and Judaism. The region has been instrumental in the evolution of our societies, and developments in the region affect the entire world order. The University of Nicosia has deep expertise in issues pertinent to the region, and the island is an ideal living laboratory in which to study complex international relations issues, including peace and conflict studies, nationalism and identity politics, and energy security.

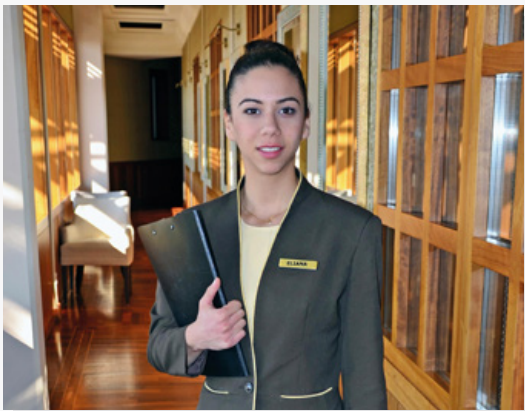

HOSPITALITY INTERNSHIP (400-Hour Summer Experience)

This internship is designed for Tourism and Hospitality Management students who would like the opportunity to learn from the tourism industry in the Mediterranean.

Cyprus is an amazingly appealing location to study Tourism and Hospitality Management. Cyprus is the sunniest country in Europe and one of the most popular tourist destinations in the Mediterranean, welcoming nearly 4 million tourists a year. Cypriot hospitality is legendary, and the country's modern and luxurious infrastructure is very appealing to travelers. The combination of superb and extensive facilities, the cleanest beaches, the warmest and driest weather in Europe, the myriad natural, archeological and architectural wonders (ancient, Byzantine, medieval, colonial, modern) of the landscape, and the rich history and culture of the island explains why Cyprus welcomes nearly three times its population in visitors each year.

Internship placements are typically located in hotels in the tourist towns of Ayia Napa and Limasol.

This program is for cohorts only.

DIGITAL CURRENCY & BLOCKCHAIN TECHNOLOGY

The Summer in Cyprus: Digital Currency & Blockchain Technology program is for students interested in developing a foundation in blockchain technology, cryptocurrency and digital currency, where it came from, how it works, and what the applications are beyond currency transactions and storage of value.

This is a unique opportunity to learn from leaders in the field and to become part of a global network of students who have studied at the #1 University in the world for Blockchain Education.

UNIVERSITY OF NICOSIA

- ▼ 1ST to Offer a Cryptocurrency Course
- ▼ 1ST to Offer a Digital Currency Degree
- ▼ 1ST to Accept Bitcoin for Tuition Payments
- ▼ 1ST to Write Academic Certificates to the Blockchain
- ▼ 1ST to Graduate Students from an Academic Program
- ▼ 1ST in the World in Bitcoin & Blockchain Education

SUMMER HEALTH SCIENCES PROGRAMS

COMPARATIVE MANAGEMENT OF CARE

Students on all health sciences programs take a Comparative Management of Care course, which compares and contrasts healthcare systems in the United States vs. the European Union, socialized vs. privatized medicine, and how culture, ethics and policy play a role in the management and delivery of care.

For example, how does one deliver bad news to the family of a patient in Mediterranean cultures vs. Northern European cultures?

The course includes site visits to public and private hospitals and clinics in an interprofessional setting around the country, and interaction with healthcare professionals.

SUMMER IN CYPRUS PRE-MED

This program gives pre-med students the unique opportunity to take a full anatomy course in the cadaver lab at the University of Nicosia's Medical School, while practicing related clinical skills in the simulation hospital through a combination of advanced dummies and interaction with actor patients.

This course exposes aspiring doctors to a Medical School and cadaver lab setting, imparting them with experience relevant to their major and setting them apart from their peers through international experience.

COURSES

- ▼ Management of Care
- ▼ Special Topics in Clinical Anatomy & Skills

SUMMER IN CYPRUS ANIMAL SCIENCE

This is a fantastic opportunity for animal science and pre-veterinary students to study animal health and disease and to learn about animal husbandry in the Mediterranean during the summer. You will visit piggeries, hatcheries, goat and dairy farms, veterinary clinics, and one of the most advanced biogas units in the European Union, which makes for a fascinating comparative study of facilities, practices and perspectives in the Mediterranean around animal care!

COURSES

- ▼ Animal Husbandry in the Mediterranean
- ▼ Animal Health and Disease

SUMMER IN CYPRUS NURSING

This program is the perfect way for nursing students to stand out amongst nursing peers by participating a nursing practicum, building their transcultural nursing skills, and enhancing their comparative, international and inter-professional knowledge of healthcare systems and care management and delivery.

Students on a pre-nursing track will attend a nursing practicum, shadowing nurses in public and private hospitals and clinics in Cyprus, while practicing related clinical skills in the simulation lab.

COURSES

- ▼ Provision of Nursing Care
- ▼ Management of Care

SUMMER IN CYPRUS PHYSICAL THERAPY

Kinesiology, Sports Science, and Physical Therapy students will study the biomechanics of rehabilitation, variables of human movement and the ways and tools to evaluate and quantify them. They will design ergonomic and therapeutic interventions in order to prevent or rehabilitate injuries or facilitate performance, and evaluate and analyze patients on a weekly basis in the advanced PT lab.

COURSES

- ▼ Biomechanics in Rehabilitation

Electives (Pick One)

- ▼ European Cultures
- ▼ Greek Language and Culture I
- ▼ Management of Care

SUMMER IN CYPRUS PHARMACY

Students will learn about the science, policy, and economic considerations that impact drug discovery, development, and how a drug actually makes it to market. The course includes industry site visits, as well as a historical perspective on the impact of technological developments and a comparative study of drug regulatory environments in the European Union vs the United States.

COURSES

- ▼ Drug Discovery & Development: Past, Present & Future

Electives (Pick One)

- ▼ Photography I
- ▼ European Cultures
- ▼ Greek Language and Culture I
- ▼ Management of Care

SUMMER IN CYPRUS HEALTH MANAGEMENT

This program is a great option for students who want to undertake a comparative study of health care systems and the role that ethics, policy and culture play in managing care. The course includes site visits to public and private hospitals and clinics where students will interact with healthcare professionals.

Health Management students will take a European Cultures or Intercultural Communication course to reinforce comparative and cultural learnings.

COURSES

- ▼ Management of Care
- ▼ European Cultures

INDEPENDENT TRAVEL

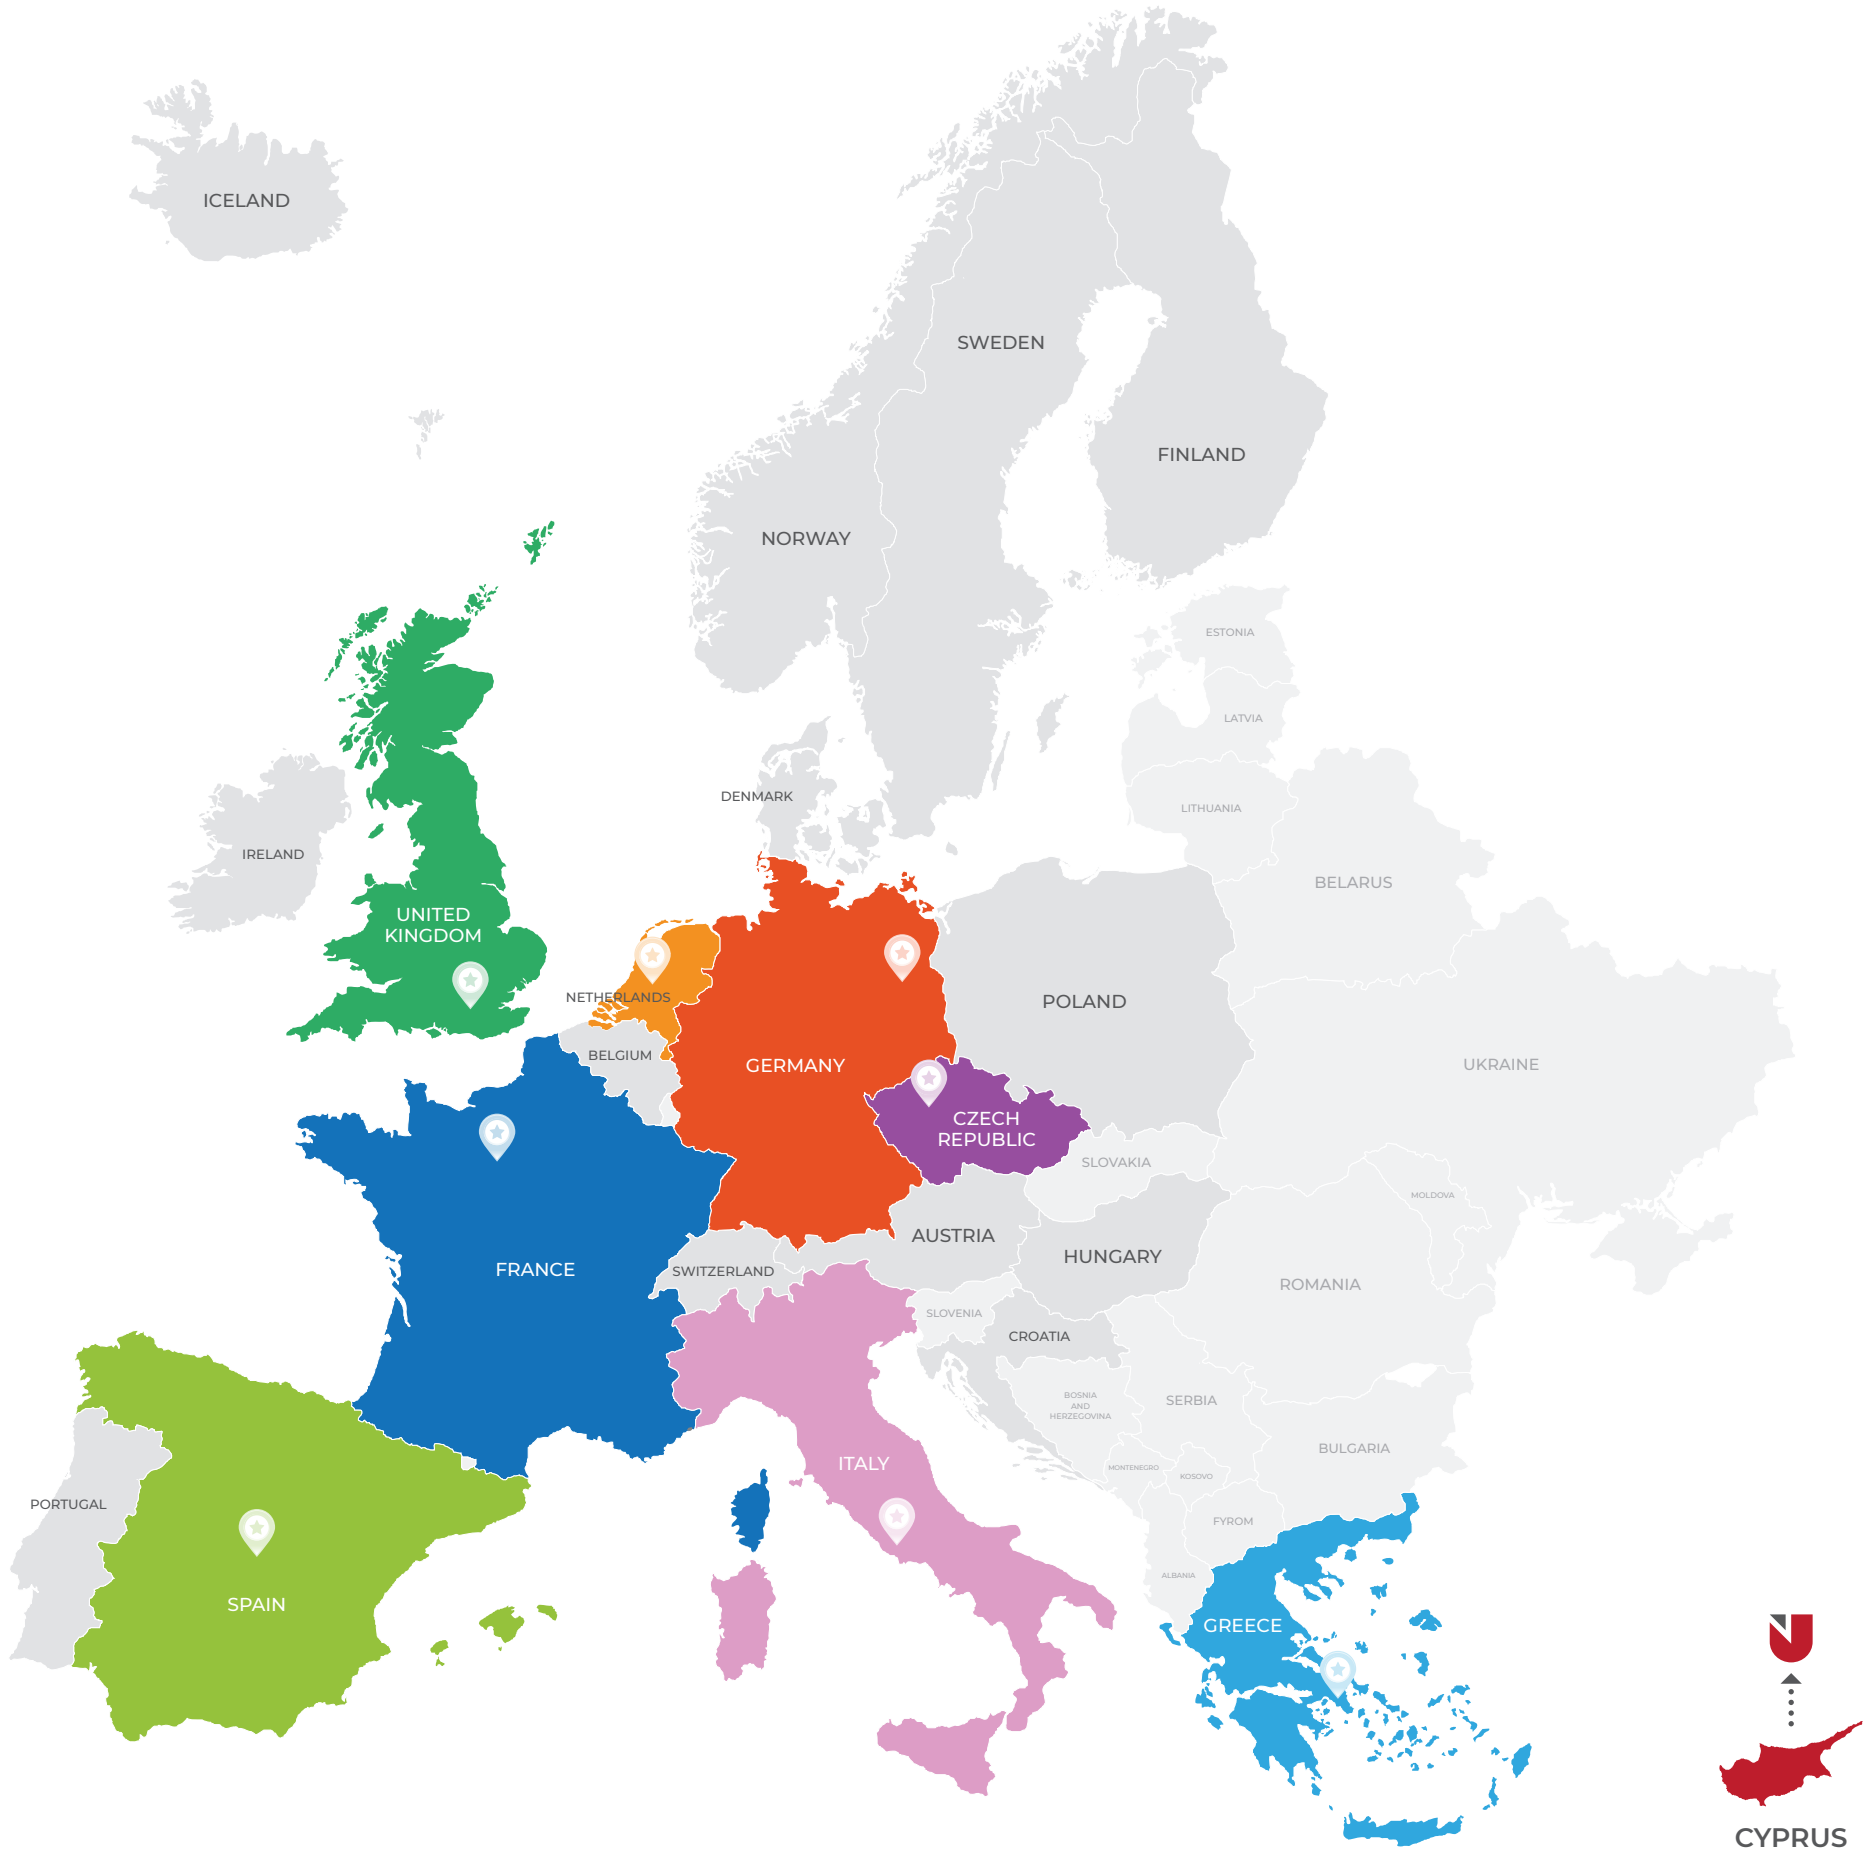

Traveling is obviously a big part of study abroad, which is why we include several weekend and day trips around Cyprus, so you can get to know your host country, and we also give you the option of including an amazing international travel itinerary to your program.

Traveling on your own, however, is also incredibly easy when your home base is Cyprus. Because it is an island country, it has excellent connections to the rest of the world, plus a plethora of budget airlines to choose to fly with, for students on a budget. Our students have traveled to destinations from Europe to Asia during their free time!

MOST VISITED COUNTRIES

-  **ITALY (ROME)**
Distance: 1,235 Miles Flight Duration: 2 Hrs, 30 Min
-  **SPAIN (MADRID)**
Distance: 2,060 Miles Flight Duration: 4 Hrs, 5 Min
-  **FRANCE (PARIS)**
Distance: 1,855 Miles Flight Duration: 3 Hrs, 45 Min
-  **GERMANY (BERLIN)**
Distance: 1,570 Miles Flight Duration: 3 Hrs, 10 Min
-  **UNITED KINGDOM (LONDON)**
Distance: 2,025 Miles Flight Duration: 4 Hrs, 5 Min
-  **GREECE (ATHENS)**
Distance: 590 Miles Flight Duration: 1 Hrs, 15 Min
-  **NETHERLANDS (AMSTERDAM)**
Distance: 1,860 Miles Flight Duration: 3 Hrs, 55 Min
-  **CZECH REPUBLIC (PRAGUE)**
Distance: 1,435 Miles Flight Duration: 3 Hrs, 5 Min

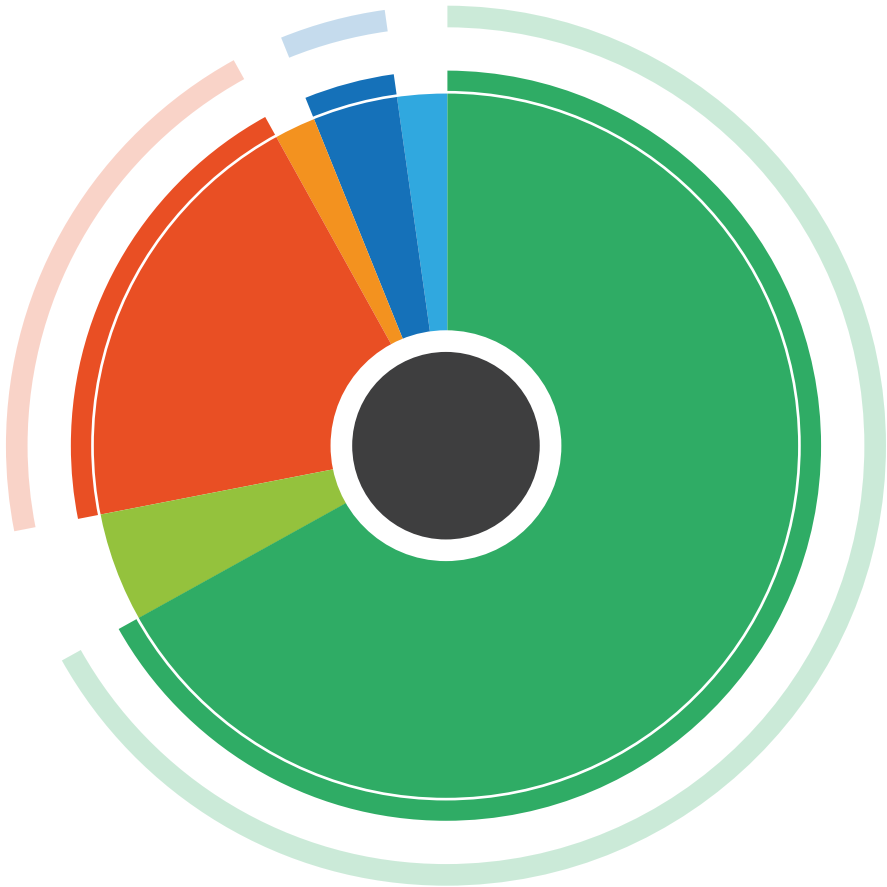

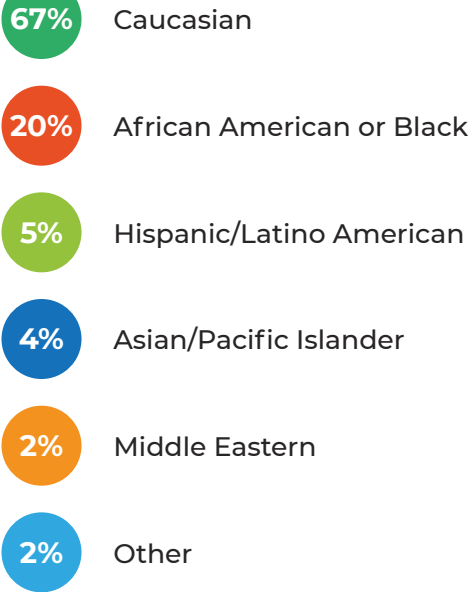

But the sky is the limit in terms of places you can visit during your semester or summer in Cyprus!

DIVERSITY

Semester in Cyprus Students at Geopark in Troodos Mountains

UNIC hosts students from all over the world in a multicultural environment, welcoming a variety of international students every year. With students from over 70 countries, you will join the largest and most culturally diverse student community in Cyprus.

UNIC's international culture includes faculty from around the world, academic partnerships with global universities, an active study abroad and Erasmus program, and a variety of national or ethnic societies and clubs. We truly value and encourage the diversity of our community.

Beyond campus, Cyprus itself is an international business and tourism hub, featuring a sophisticated and welcoming environment that led the island to be ranked the 5th best relocation country in the world. English is widely spoken, and is the main language of business, making it easy for you to enjoy everything Cyprus has to offer.

The University of Nicosia Global Semesters is committed to increasing diversity in study abroad and in its full-time degree-seeking student body.
