

UNIVERSITY of NICOSIA | Global Semesters

UNIC AI LAB

Credit-Bearing Research Internships

RESEARCH INTERNSHIP PROJECTS

- 1) Machine learning for drone swarms
- 2) TV Series Recommendation Application
- 3) Timely detection of uncertainty in machine learning processes
- 4) Educational Data Mining
- 5) Adaptive sensing for drones
- 6) Opinion Explorer
- 7) Basketball Analytics
- 8) Fact Checking Algorithms
- 9) Multimodal Emergency Management from Tweets
- 10) Comics Translation
- 11) Conversational Agent
- 12) Machine Learning Recommendation Service for Music Streaming Applications

***Additional details on research projects can be provided upon request.
